David:

It looks like there are two additional well bringing the total to 34 wells. In addition, it appears that 22 wells may be active. We are looking to send you an updated list this afternoon and post soon after.

Thanks,

Rob

Subject: UIC desk statement

Hi Rob,

As part of a desk statement we are preparing, we have included the following language:

“The State has confirmed that 32 wells are subject to the mandatory October 15th shut-in deadline, although only 18 of these are active. DOGGR inspectors will confirm that all affected wells have shut-in.”

Could you please confirm the accuracy of this information? Also, when will you have the updated table of 176 wells on your web site?

Thanks,
David
